

Api Contract

API Contract

POST /users/register

Creates a user and returns a tenant ID.

```
{
  "username": "nisha",
  "api_key": "provider-key"
}

{
  "user_id": "uuid",
  "tenant_id": "tenant_9f4a12_4821",
  "username": "nisha"
}
```

POST /agent/message

Processes typed input.

```
{
  "tenant_id": "tenant_9f4a12_4821",
  "message": "Add gym at 7 PM"
}

{
  "intent": "create_task",
  "response": "Added gym at 7 PM.",
  "tasks": []
}
```

POST /agent/voice

Processes uploaded audio.

Form fields:

Field	Type
---	---
tenant_id	text
